SERVICE FUND DRIVE SHORT OF GOAL; HOPE TO REACH \$10,000 BY NOV. 26

Campbell Community Service Fund to date has collected \$8,711.00 from door to door solicitations and from business concerns in the city. Amount collected is far short of the \$18,500.00 goal set at the start of the campaign, but Dr. Robert M. Wade, Service Fund president and Ed Tablak, drive chairman report that some checks from local business establishments have yet to come in.

In a final attempt to up the present amount to \$10,000.00 30 volunteer Service Fund workers are making a last minute telephone appeal to residents in the Campbell area, who have been missed in the door to door solicitations. "It seems almost unthinkable," said Tablak, "that some of the services that depend on this money to help others in our own community, will have to be curtailed due to lack of support from our neighbors."

"The drive is certain to be short of the goal, and the drive must definitely end November 26, but we sincerely hope that this telephone appeal will at least raise the sum to \$10,000. We urge you in the name of good neighborliness to contribute generously when a solicitor calls."

LOCAL RITES ARE HELD FOR MARTIN CLINE

Local arrangements were conducted by Rutherford Funeral Home for Martin Luther Cline, who died in a San Jose Hospital after a short illness.

A native of Ohio, he was 76 years old. Interment will take place in the Cline family home in Woodfield, Ohio.

Well-known Campbell members of the family include his son, Emmitt Cline, 269 Esther Ave., with whom he was visiting shortly before his death, and a granddaughter, Mrs. Mary Lou Cline Williams.

Other survivors are two sons, three sisters and two brothers, and another granddaughter. All are in the East.

Martin Luther Cline was an elder in the Church of Christ, Plainview, Ohio, and a member of the Official Board.

COUNCIL READS ORDINANCE ADOPTING SEVEN MEMBER PLAN COMMISSION

First reading of an ordinance creating a seven member planning commission for the City of Campbell was read at Council meeting Monday night. The number was upped from the originally planned five member commission when Mayor Richard W. Morton suggested the smaller number might create some problems for lack of a quorum.

Planning consultant Nestor Barrett said that in his experience the larger number was preferable.

Barrett submitted to the council maps showing anticipated land use in three colors in the city as part of the Master Zoning plan. He told members of the council that a master street and highway plan will be ready shortly.

City of Campbell has two more ordinances making a total of 21 for the eight month old city.

Passed last week as emergency measures were ordinances prohibiting drinking intoxicating beverages on public streets, parks, schools, and recreation grounds, and another setting forth penalties for the use of vulgar, profane, and indecent language in the presence of women and children.

Council granted a use permit to James L. Countryman to use property on the Santa Clara-Los Gatos Road between Rincon Ave. and Mission Way for a used car lot.

Decision on granting a use permit to E. R. and E. K. Garrison to erect a multiple dwelling on lots one and two of P. G. Keith's Subdivision on the Santa Clara-Los Gatos Road between Hamilton Ave. and Latimer Avenue was deferred one week for further study.

It was the opinion of the planning consultant that the use applied for was too heavy for the area.

Reforestation Is Subject Of Rotary Talk

Charles P. Olsen of Union Lumber Company outlined Reforestation Methods in use today for the Campbell Rotary Club at their regular meeting Monday at IOOF Hall.

Olsen mentioned that the ice age destroyed many of the redwood trees that at one time grew all over the world, and which today make one of California landmarks.

It was not until 1920, Olsen said, that reforestation methods were introduced to prevent complete depletion of the nation's timber stands.

In 1945, he said, the state government passed a law which required lumbermen to leave four seed trees in every acre after logging operations.

Olsen pointed out that tree farms, started by Weyerhaeuser Lumber Company, seem to be the solution for preserving the nation's forests, but said Olsen, that requires extensive operations suitable only for large lumber concerns. For the small operator, Olsen said, tree farms become an expensive proposition.

In spite of concentrated efforts on the part of lumber companies to save trees by farsighted logging operations, Olsen said in his talk, thousands of acres of valuable timber are lost yearly in forest fires through carelessness on the part of motorists and campers.

Local Police Recover Stolen Automobiles

Campbell patrolmen Robert J. Locke and Louis Doolittle, recovered two stolen automobiles Sunday night in Campbell to cut short the joy-riding activities of two San Jose juveniles.

Locke's suspicions were aroused at 2 a. m. Monday morning in the vicinity of the 5-Spot Drive-in on Winchester Road when a fourteen year old abandoned a 1937 Ford and lit out when Locke hove into view in the prowl car.

The patrolman picked up another youngster walking near the County Hospital and after questioning, found that both boys were buddies and that each had stolen an automobile earlier in San Jose for a joy ride into Campbell.

Both cars, 1937 Fords, were stored at Murray's Garage to await recovery by their San Jose owners. Boys were taken to juvenile hall.

VERLE GRIZZLE JOINS STAMP ASSOCIATION

Verle O. Grizzle, jeweler on E. Campbell Ave., is the latest merchant to join the Campbell Stamp Association.

Grizzle, who specializes in the sale and repair of nationally advertised jewelry such as Waltham and Bulova watches, keepsake diamonds, silver items and fine leather goods, makes the 33rd member of the Association.

"With the Christmas season approaching," Grizzle said, "it is to the advantage of both merchant and the shopper in Campbell to take advantage of any business opportunity that presents itself."

"The stamp association does just that," he said. "It helps the merchant by encouraging Campbell residents to shop in their own community, and it certainly helps the shopper who saves on every purchase, by getting, in the form of stamps what amounts to a discount on every dollar purchase."

CAMPBELL REGISTERS BEST VOTE TURNOUT IN COUNTY, NOVEMBER 4

The best voting percentage in the entire 615 precincts of Santa Clara County was turned in by Campbell area voters in the November 4, presidential election according to final unofficial returns at the office of Registrar of voters.

Almost 87 percent of the registered voters in Campbell's 11 precincts cast their ballots for candidates of their choice.

Of the 2,701 registered voters, 2,349 voted for a city percentage of 86.9. What makes the percentage even more impressive is the fact that absentee ballots have not yet been counted and when added to the present total will make it higher.

Probably the best turnout in the county was credited to Campbell precinct No. 9, at the home of Margaret Costa, 125 Rosemary Lane, where 98 percent of the registered voters went to the polls. There, 141 citizens voted, out of 144 registered. The precinct lists 63 registered Republicans, 77 Democrats and four non-partisans.

There is a possibility that when absentee ballots are counted this precinct will have registered a 100 percent vote turnout. Other Campbell precincts did almost as well as can be seen from the following table.

LETTERS TO THE EDITOR

Opinions expressed in letters to this department do not necessarily reflect the editorial policy of this paper.

To the Editor of the Campbell Press.

Dear Sir:

From many suggestions by customers and my own observation during 2 years as retail merchant in our city, I have become so conscious of the need for an active Campbell Merchants organization that I would like to discuss this matter in your columns with the hope of evoking more comments, possibly getting action for the benefit of the business community and thereby, our city as a whole.

Our city, since its organization and incorporation last March has made great improvements in police protection, zoning ordinances and many other matters, thanks to its able leadership and the support by your newspaper. It seems to many, that we business men have failed to follow the example of the city in modernizing our services to the community. One look at our main business street and comparison with those of smaller and less centrally located towns, like Los Altos or Los Gatos, will prove the point better than a long list of needed improvements.

We have not yet agreed on one certain night a week when all our stores are open for the convenience of our local residents with both husband and wife working during the day or one car in the family. Examples of San Jose, San Francisco, New York City and practically every suburban area all over the country have proved that this open night, at least once a week, is demanded by the customers. I am sure it can not be said that business in Campbell is so wonderful or the merchants so old fashioned that they are unwilling to make this concession to changing times. But there is no incentive for people to shop at night unless all the stores keep open the same night.

We have also been criticized for our lack of hospitality to new residents in this area. We are lucky enough, from a business standpoint, to have hundreds of new families move in every month, and we should make it a point, in cooperation with builders and realtors, to have somebody call on the housewife when she has newly settled here, and give her all the information possible about local services, stores, schools, library, etc., and a coupon for merchandise or a trading stamp book, good in local stores. Anybody who has ever been welcomed when moving in any one of the East Bay cities during the last 15 years, will know how much such little selfish hospitality is appreciated.

Preparations for Christmas street decorations and Santa Claus appearances in the business district are another example of neglected community services.

Cooperation with City officials for the benefit of the merchants and the community are needed as well as contact with industrial organizations for the purpose of locating plants with year around

FUNERAL TODAY FOR FIREMAN KILLED IN CAR

Services for Chester McCaw, 37, Santa Clara County fireman who died Monday from injuries suffered in an auto accident near Redding, will be held today at 2 p. m. in First Baptist Church, San Jose.

McCaw was stationed at Cambrian Fire House and was well-known in the Cambrian and Campbell district.

He was killed, and his wife, Cecile, and his two children, Dennis, 11, and Sandra, 4, were injured when an auto pulled into the path of McCaw's truck 10 miles from Redding. The truck was thrown into a telephone pole.

The family had gone to Northridge California for a load of Christmas trees for his off-duty business.

CUHS, PARENTS ATTEND CLASSES

Campbell Union High School Parent-Teacher's Association met Wednesday evening November 12, with parents attending their children's classes at regular 10 minute periods.

After the classes, parents met in the girl's gym with the school band playing many selections under the direction of Mr. W. LeCroy.

Senior mothers served refreshments, with Mrs. John Cantoni as chairman.

Next meeting will be held Thursday evening Dec. 18, in the school auditorium for a Christmas program.

School children will also participate and everyone is invited to attend, according to P. T. A. spokesmen.

LORRAINE WOOD, Campbell pianist, will play before District Conference of Mu Phi Epsilon, national music sorority, to be held in Stockton on November 22nd.

payrolls in this area, in addition to our seasonal fruit picking and canning activities.

Any far seeing merchant knows that he owes his community more than just doing business the same old way, and that he has only himself to blame for the inevitable results. On the other hand, it takes an aggressive group to accomplish what is needed, the job is too big for any one individual. And it is hard to get people to contribute time and enough money to do the proper job.

That is why I would like to urge anybody with any ideas on the subject to contact the Campbell Press or the writer and express himself on the best ways and means of creating an active, wide awake merchants organization, run by active business men who make their living in our home town and are willing to overcome all the good old reasons why certain things can not be done.

Sincerely yours,
Robert Seligson,

Plans were discussed for the annual church bazaar, which is to be held on December 4th and 5th in the church. The general theme for the bazaar is "The Turn of the Century". Booths of all kinds will be set up, and decorations will be in keeping with the theme.

On Thursday, December 4th, two dinners will be served, one at 6:00 p. m., and one at 7:00 p. m. Tickets will be \$1.25.

On Friday, December 5th, booths will be open, and during the afternoon, from 2:30 to 5:00, the Women's Service Club of Campbell will serve tea.

All committees are working diligently to make this an outstanding event of the year.

BUCS TO BATTLE MOUNTAIN VIEW IN TRY FOR FOURTH STRAIGHT WIN

Riding on the crest of a three win wave, 7-6 over Menlo School last Friday, 31-12 over Washington High the week before and 7-6 over Santa Clara, Campbell High School Buccaneers are primed for number four when they travel to Mountain View High School for tomorrow night's 8 p. m. game.

Mountain View uses an offensive "A" formation with an unbalanced line to the left to spring a strong backfield combination to the right. Key player in this set-up is 145 pound scat-back sprinter, Frank Unguerra, who, according to scout reports and past performances, can go all the way in practically any situation.

Campbell coach, Jim Muir said he will attempt to bottle Unguerra by pinching him at the ends, and will probably advise punters, Wayne Gregg, and Bill Montero to kick away from him. He is reportedly a punt return expert.

Last Friday the locals eked out a lucky 7-6 win over Menlo. One line buck conversion by Larry Pereira made victory possible in spite of six fumbles and four pass interceptions.

Menlo tallied first in the first period after gaining possession of the ball on a Buc fumble. Only other score occurred in the final quarter when Pereira nabbed Gregg's slippery aerial on the 46 and raced to the 31. Bill Montero, on a quick opener, took it the distance on the next play. Pereira line-smashed the conversion.

Campbell's strong line made the winning difference in the 31-12 Washington High battle, according to Coach Muir.

Washington's pass attack set up the game's first score when a recovered fumble on the Buc 30 yard line gave them possession. John Chacon flipped 25 yards to Jim Bolivia after three line plays netted Washington five yards.

Washington scored again in the final quarter on a nine yard bullet, Chacon to Galvin, to cap a sustained 16 play, 35 yard march.

Larry Pereira and Duane Holm led the Campbell pack in scoring. Pereira with three and Holm with two.

Pereira squirted off tackle for 40 to set up Holm's tally from the 10, for the first Campbell score. Pereira bucked inside tackle for 35 yards for the second, eight plays after Washington's kick, only to be called back for an offside penalty. On the next play he repeated the performance and the score was good.

Holms went over for the locals when a recovered kickoff fumble set the Bucs in scoring position. Fourth Campbell marker went up when Pereira intercepted a Chacon pass in the third quarter and galloped 60 yards.

Fifth and final tally was logged by Pereira in the fourth quarter on a 28 yard off-tackle dash. Holm kicked four out of five extra points.

Believes South America Once Joined To Africa

Algiers, North Africa (U.P.)—A University of Cincinnati geology professor has announced new finding on an old question: Were South Africa and South America ever joined by a strip of land?

Dr. Kenneth E. Caster told the International Geologic Congress here that his years of study have convinced him that the two continents, although never a single body of land as suggested by some, were once joined by a belt of earth. He said the strip probably

School Children Enjoy Swim In High School Pool

Over 100 children from various playgrounds in the Campbell Recreation District enjoyed the use of the High School swimming pool recently as part of the year-round recreation program headed by Kenneth Robson.

Moorpark playground had the largest number of boys and girls according to the attendance record. This group was under the leadership of Stan Gould and Lois Hoyt.

San Tomas children attended with playground Director Don Stephens in charge. Those from Union School were under Berkeley Mathew's guidance, while those from Campbell playground were led by Harold McGill.

Plans are being made for other playgrounds to swim in the near future, Robson said.

Pet show was a recent feature at Union School Playground, attracted a crowd of over 200 parents and children with pets ranging from turtle to horses.

Several Playground groups have attended football games as guests of Stanford, and as members of the "Knot-hole Gang".

The newest Playgrounds to go into operation are Rosemary School, with Jim D'Aviss, director and Cypress School with Earl Morway as Director.

*How to make
good telephone service
even better....*

*telephone tips for
talkative teen-agers*

Time has a way of slipping by when the youngsters are visiting their friends by telephone. If you have a problem like this around your house, why not tip off the youngsters to the fact that the calls they get are often more important than those they make? And, of course, no one can call them . . . or you . . . as long as they have the line tied up with lengthy conversations. That's why, when they remember to leave a few minutes between calls, they won't run the risk of missing an important date because the boy who was calling could get nothing but a busy signal.

you'll always have numbers handy
when you need them, if you'll make a list of the numbers you call most often. And if you'd like to keep numbers in a handy, indexed booklet, just call, send a postcard, or drop in to your Pacific Telephone business office. We'll be glad to give you a free personal number booklet.

"Money I can depend on..."

"Before the cannery came to town, I could never tell what I was going to get for a crop until I took it to market.

"And lots of seasons my stuff was past its prime before I could find a market.

"Now, everything I grow goes to the cannery. It brings in an income that I can depend on, year after year."

The high-speed precision manufacture of modern food-containers, and the development of canning techniques for almost any food you can name, has created a world-wide market for what California

grows. This has stabilized farm income, converted barren acres into productive land.

For more than fifty years, American Can Company has been helping the California canning industry widen markets for California fruits, vegetables and other products.

The better we as a nation produce, the stronger we grow.

Our work here—making containers and helping industry use them—is a good example of how a nationwide business can bring its services to bear at the local level, increasing income all along the line.

A Hint to Thrifty Housewives

Canned fruits and vegetables are always your best buy . . . and are today a greater value than ever.

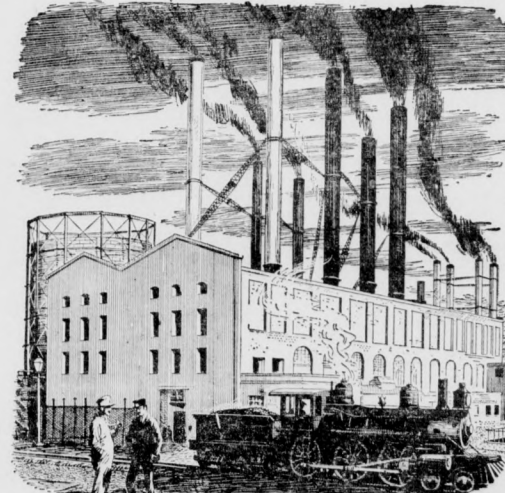

According to the United States Bureau of Labor Statistics, the retail prices of canned fruits and vegetables are below the average prices of five years ago.

100 YEARS EXPERIENCE

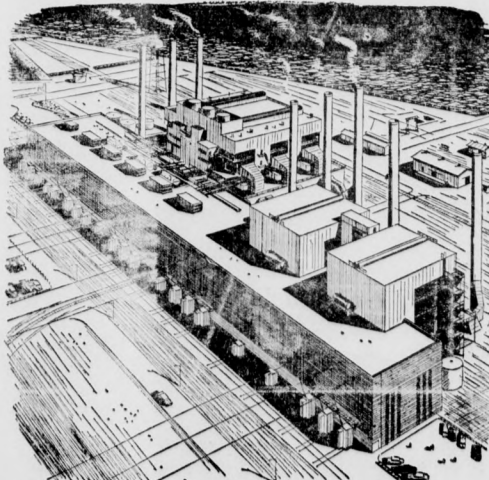

How it's helped us develop new ways to bring you more electricity

1879—San Francisco was first city in the world where anyone could buy electricity. P. G. and E. power business dates from this tiny plant.

1901—First to make electricity by burning oil instead of coal was station "A"—650 times larger than the first P. G. and E. plant.

1952—Four times more electricity per barrel of oil—compared with the 1901 plant—comes from generators in the Contra Costa plant.

Electric service for the public didn't come to the West until 27 years after P. G. and E. began as a gas company. But when it came, it was the first anywhere in the world. In the years since, scores of power plants have been built . . . some using water to turn generators, some steam. Each plant has been a more efficient power producer.

Still greater progress lies ahead. With the authorization of the Atomic Energy Commission, P. G. and E. is studying generation of electricity by atomic energy.

One result of P. G. and E.'s progress is that good gas and electric service is truly cheap in California.

GUIDE DOGS FOR THE BLIND NEED FOSTER HOMES BEFORE TRAINING

Eight pups, all three months old, are waiting impatiently in the San Rafael kennels of Guide Dogs for the Blind, Inc., for foster homes. For the next nine months, Mrs. Richard Morton, Campbell Chairman of the non-profit organization said, these pups want to be members of families, where they can play tag with youngsters, ride in automobiles, be petted and have fun. After that, they will begin their training in the serious profession of guide dogs, to be the "eyes" of blind men and women, to give them freedom of movement and independence of spirit.

These pups—three German shepherds, three Labrador retrievers, a Boxer and Weimaraner, (the last a rather rare breed in this country) have already been given a succession of tests for intelligence, friendliness and temperamental traits which make them good guide dog material. When they return to the school at the age of a year, they will be put through a highly specialized training course for three months, when once commands, as well as the they learn to follow basic obedience specific ones needed in their guiding of the blind. For another month, they are trained with the blind person to whom they will be presented at the end of the course, when master and guide dog learn to work together as a team.

Many foster homes are furnished by 4-H members under an arrangement with the Agricultural Extension Division of the University of California, cooperating with County Farm Advisers... and club members receive credit for the care they give their canine playmates. Other pups are taken by families because they love dogs, and because they are interested in making a contribution to the guide dog program.

Young people and their parents frequently come to see their pets graduate with their blind masters from the training school and are proud of the part they have played in producing guide dogs.

Campbell Mother Receives Notice Of Son's Death

Mrs. Harry Smith, 21 Sunnyside Ave., Campbell has just received notice from the Navy Department that her son, Navy flyer, Ensign Donald Smith, has been declared legally dead.

Ensign Smith was the navigator on the P2V Navy bomber that made newspaper headlines a year ago when Russia protested to the United Nations that this plane had crossed the Russian border, and that her flyers had chased it until it had disappeared toward the ocean.

General Matthew Ridgeway, UN Troop commander in Korea, at that time had reported that the plane was over the open seas on weather reconnaissance.

The Navy Department in a letter to Mrs. Smith, last Friday informed her that a complete search had failed to reveal anything about the bomber or any possible survivors.

Ensign Smith's wife, Virginia, received her husband's Air medal award for 20 missions over enemy territory at her Campbell address last month.

Mrs. Virginia Smith and her 23 month old daughter, Leslie, left Campbell last month for Pensacola, Florida.

Ensign Smith graduated from Campbell Grammar Schools, and Campbell High School. He joined the Navy in 1944 and served until 1946. While a civilian Smith attended and graduated from San Jose State. He received his wings and commission and reentered the Navy. He was sent to Korea in November 1950. He disappeared Nov. 6, 1950.

Beta Gamma Chapter of the Delphian Society will meet this morning at 10:00 in the Campbell Woman's Club House, with Mrs. R. G. GUTO as leader.

Mrs. LLOYD W. BROWN has been named Captain of the Campbell Area for the Foundation for Guide Dogs for the Blind. Mrs. RICHARD MORTON held the captaincy last year. Mrs. Brown announces that plans are well under way for the campaign, which will start next February.

Club Women Hear About Montalvo

The late Senator Phelan, famous host of Montalvo, and his notable guests, including such personages as Gertrude Atherton and Helen Willis Moody, figured in a talk given before the Country Woman's Club November 17th by Mrs. Frederick Vickery. Mrs. Vickery is an authority on tapestry as well as on "The Art of Being a Gracious Hostess", the title of her discourse. She lives at Montalvo, where her husband, an artist, is also manager of the estate.

The clubwomen were told how Montalvo was begun by the philanthropic senator 4 years ago and how it took a number of years to complete, as many of its furnishings were purchased in Spain and Italy during Senator Phelan's travels.

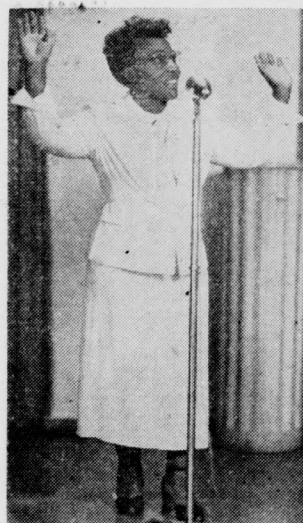

Mrs. Vickery described the eight living units designed for artists to occupy, and which are at present accommodating several sculptors and other artists who have qualified for the privilege. Laundry, janitor and gardener service are also available to the residents. Originally, Mrs. Vickery stated, \$75,000 a year was spent to carry out Montalvo's service to art; now only \$11,000 a year has to cover expenses.

The speaker disclosed a little-known fact, that Montalvo is open to the public at all times.

Miss Joan Bielefeld, Campbell Union High School student, presented the musical portion of the program, playing piano solos. Her selections were "Apple Blossom Time" and "Wonder Who's Kissing Her Now".

The next meeting of the Country Woman's Club will be the traditional Christmas Tea, on December 1st at the Country Woman's Club House.

CAMPBELL HI-LIGHTS

by Bob Olson

Tomorrow afternoon during sixth period all students will enjoy two "extra" activities: (1) A pep rally to inspire our football team to close out a great season with two great victories over Mountain View tomorrow night and Los Gatos next Thursday and (2) Watching the Turkey Trot. This is an annual mile and a quarter obstacle race with various holiday fowls as prizes. This year someone who calls himself the "Masked Marvel" has stirred a lot of interest in this athletic event which can rightfully be called "for the birds".

This year's Thanksgiving morning football game should be the best in years. We make but two suggestions: (1) COME SEE IT.

(2) COME EARLY. The game starts at 11 A. M. but the gates will swing open at 9:30. There is a limited seating capacity, everybody's going, and tickets are all on a first come "best seat" basis.

There is no advance sale of tickets which sell at \$1.00 for adults and 50 cents for grammar school children. There'll be ample parking space for your car in the big lot next to the girl's gymnasium.

As you know, this game is the traditional big one between the Cats of Los Gatos and the Bucs of Campbell. This year both are fighting for SCVAL honors. At times both have looked sensational when their offense clicked; all season long both have looked strong defensively. Los Gatos' big hope rests in the passing arm of Jim Johnson, Campbell's in the pile-driving running of Big Bill Gregg. But anything can and usually does happen when our biggest nemesis pays this yearly visit. Be

there to see fireworks on Thanksgiving!

Nowhere has this writer seen a more successful PTA than the one operating here at CUHS. If you were among the 734 attending "Back to School Night" you'll agree what a success that was. Every room was full of interested parents who were full of thought-provoking questions. A school is

bound to be great with this kind of understanding and backing. Save places on your calendar for the next two big PTA functions. On December 10th we'll all "Share Campbell High's Christmas Gift to the Community" in the school auditorium. And on January 14th we'll read Dr. Walter Loban of the University of California at Berkeley who is a nationwide authority on reading and grouping.
